**Attendees receive 18 continuing education credits for accounting
medical & human resource professionals**

**Sponsored by SCRIMP, LLC, the “Disney Keys to Excellence” will explore
the topics of leadership, management, service and loyalty**

HOUSTON, TEXAS (June 21, 2009) – Disney Institute is bringing its renowned professional development program, the “Disney Keys to Excellence,” to the Hilton University of Houston Conference Center and Hotel on June 30, July 1 and July 2, 2009. Sponsored locally by **SCRIMP, LLC**, the **three-day seminar** will give area professionals an opportunity to experience the business behind the Disney magic – proven strategies and best practices that are easily adaptable to their organizations.

“This is the only program that Disney Institute brings to the local business community,” said George Aguel, senior vice president for Walt Disney Parks and Resorts, who also leads the Disney Institute.

“Participants from the **Houston Metro** area will discover Disney practices that they can incorporate into their own businesses. These strategies and tactics have been proven successful for more than 50 years.” Disney Institute programs are unique in the world of training.

“What makes the Disney learning experience so different and meaningful is that we don’t simply teach theory,” said Aguel. “We give participants an ‘insider’s look’ at business philosophies that have helped Disney to consistently rank as one of the world’s most admired companies and brands. Engaging content is presented in an entertaining fashion and provides participants with tools that can literally transform their organizations.”

The **three-day** “Disney Keys to Excellence” program is detailed at www.myceuniversity.com/agenda. **Program registration is \$1300 per person, including tax, and \$2050 per person, including three nights of accommodations. All course materials with continental breakfast, lunch and snack are included in the program registration fee. Continuing education credits are offered for registration in professional fields. The program is also accredited by numerous professional bodies, including the American College of Healthcare Executives, Human Resource Certification Institute, National Association of State Boards of Accountancy and the Annenberg Center for Health Sciences.
